

Benefits

- ✓ Under-seat steering reduces joint strain
- ✓ Modern and contemporary recumbent tricycle
- ✓ Suitable for both sporty and recreational cycling trips
- ✓ Extra comfort thanks to suspension in the frame
- ✓ The recumbent tricycle fits through a regular door

Popular options/accessories

- Pedal assist (smart e-bike)
- 8 gears with freewheel
- Preferred controls on one side of the handlebars or one-handed lock
- Foot fixation for fixation on the pedal
- External charging point for easy charging of the battery

”

Thanks to this bike, I can cycle a lot again because it's super cool and easy to use!

Liam

Easy Sport Small

Recumbent tricycle

The Easy Sport Small is a recumbent tricycle with under-seat steering. The bike is designed for children and small adults who want to cycle sportively and is the smaller version of the Easy Sport recumbent tricycle for adults.

The bike offers excellent riding comfort thanks to the suspension in the frame, the seat with backrest, the forward pedalling position, and the recumbent cycling posture. The under-seat steering reduces strain on the back, neck, shoulders and wrists.

With the help of options such as pedal assistance, pedal adaptations or a cane holder, you can customize the bike to your needs.
