The Balance is a pleasant bicycle. I can always reach the ground with both feet. It feels very safe.

Lucas

Balance

Low step-through bike

The Balance is a low step-through bike. Due to the unique frame, you have a lower seating position to make sure you always can reach the ground with both feet. Because of this you do not have to step off the bike, and you can cycle with a straight leg.

The centre of gravity of this bike is slightly lower which makes cycling easier and more comfortable. The Balance has a unique ergonomic seating position that relieves the wrists, shoulders, and neck.

Do you want a low step-through bike with three wheels? The Maxi Comfort tricycle might be a good choice. You can find the Maxi Comfort on page 18.

Benefits

- ✓ Extra wide and low step-through
- ✓ You can always reach the ground with both feet without getting off the bike
- ✓ You can apply more force due to the forward pedalling motion
- ✓ Ergonomic seating position
- ✓ Cycle comfortably due to the lower centre of gravity

Popular options/accessories

- Pedal assist (smart e-bike)
- Various frame sizes available
- One-hand operated lock
- Stick holder or panniers for carrying your essentials
- Mirror for extra safety
