

Fun2Go

Side-by-side tandem bike

RENEWED

The Fun2Go side-by-side tandem bike

On the Fun2Go side-by-side tandem bike, you can cycle together. Because you are sitting next to each other, you can easily communicate with each other and enjoy the surroundings together. The driver has full control over the bike and the passenger can optionally pedal along.

Because of this, the bike is perfect for people who cannot (or no longer) participate in traffic individually. With the Fun2Go you are guaranteed hours of cycling fun, and it lets people feel the wind through their hair again!

Van Raam has the side-by-side tandem bike in its range for 30 years. The bicycle is continuously improved and now this is the fifth generation of this bike.

FunTrain side-by-side tandem trailer

The Fun2Go can be extended by adding the FunTrain side-by-side tandem trailer. This makes it possible for one driver to cycle with three passengers.

Fun2Go side-by-side tandem bike with the FunTrain side-by-side tandem trailer.

”

Thanks to the Fun2Go we are visiting various places. We have gotten back our freedom.

Benefits of the Fun2Go

- ✓ Good visibility and communication while sitting next to each other
- ✓ Passenger can come along if they can sit (pedalling along is not necessary)
- ✓ Easy to operate and a small turning radius
- ✓ One person is steering, both can pedal
- ✓ Comfortable and adjustable seats with backrest

Characteristics of the renewed Fun2Go

- Ergonomically optimised
- A basket on the front of the bike is standard
- Increased comfort of the seat, and no step-through
- Modern and updated design
- Thicker tyres with better suspension

Options for the Fun2Go

With diverse options such as a rotatable seat, belt or gear hub, the bike can be customised to your needs.

Do you want an electric side-by-side tandem bike? Then you will receive your Fun2Go side-by-side tandem bike with the Van Raam Silent electric system and the new Silent smart display.
